

ben and cole have 36 airplanes models all together. ben has 8 more than cole. how many airplane models does ben have?

Answer 1

Answer: $36/2=18$

they equally have 18 each if split in half. since ben has 8 more, take 8 from cole, and give them to ben. lol then ben has $18+8=26$. cole has 10.

Answer 2

Answer: $36/2=18$

they equally have 18 each if split in half. since ben has 8 more, take 8 from cole, and give them to ben. lol then ben has $18+8=26$. cole has 10.
